

CORRELATED **CRUDE** PRICE INDEX

REFINERY CALC
WE REFINES COMPLEXITY

Refinery Calc's **Global Correlated Crude Oil Index (CCI)** is a comprehensive benchmark designed to track the price of non-popularly traded crudes. We provide investors, traders, and analysts with a reliable and transparent reference point for assessing the price movements and trends in the crude oil industry for these less commonly traded grades of crude oil.

Our Correlated Crude Index utilizes Refinery Calc's **cutting-edge Engine Mode Technology** to perform Gross Product Worth (GPW) analysis with near perfect 100% heat and mass governed solutions that deliver fully optimized results, surpassing basic deterministic alternatives.

ABOUT

the index

Comprehensive Index Composition:

Our comprehensive index covers over 500 crudes, providing a broad representation of the market. It incorporates diverse crude oil grades from major oil-producing regions worldwide, including both light and heavy varieties.

Global Coverage:

The index our team has created spans crude oil markets across North America, South America, Europe, Asia, Africa, Oceania and the Middle East, offering a comprehensive real-time view of the global industry.

Transparent Methodology:

Our Correlated Crude Index maintains a transparent methodology, allowing market participants to easily comprehend the index's construction and price calculation process.

- ✓ Transparent Methodology

FEATURES

the index

API delivery or interactive dashboard

Directly Integrate our data seamlessly into your system with our robust API, or leverage our user-friendly dashboard for an intuitive and interactive visual experience.

Daily Updates

Stay informed with our continually updated Crude Pricing Index, available on our user-friendly website. Access the most current and reliable market data to make informed decisions.

Historical Data Analysis

Explore past values on our interactive dashboard to uncover valuable insights, identify trends, patterns, and opportunities that can enhance your strategies.

Future Crude Analysis

Utilize our comprehensive crude valuation platform to analyze future crude values. Leverage advanced forecasting techniques to stay ahead of market fluctuations and make strategic decisions.

Assay-Based Value Determination

Simplify your workflow with our automated "price finder" routine. Just provide us with an assay, and our advanced algorithms will swiftly determine its value, saving you time and effort.

BENEFITS

the index

Pricing and Risk Management

Our CCI is a reliable pricing reference for market participants, including oil producers, refiners, traders, and financial institutions. It facilitates effective risk management and price hedging.

Market Analysis and Research

Our index's coverage and historical data enable detailed market analysis and research. Users can identify market trends, correlations, and trading opportunities.

Benchmarking

Our Crude Correlated Index provides a benchmark for evaluating the performance of investment portfolios or crude oil-related funds. Investors can compare their returns against the index and assess their investment strategies.

At A Glance

- ✓ Reliable Pricing Reference
- ✓ Identify Market Trends
- ✓ Benchmark Portfolio Performance
